

## **Position: Environmental Project Manager**

**Location: Rosenberg Texas**

**Job Status: Full-Time**

**Experience: 10+ years**

**Application Deadline: Until filled (immediate opening)**

### **Environmental Project Manager**

CRG Texas Environmental Services, well established environmental consulting firm is seeking a Senior Environmental Professional to join our team and help lead the growth of our Environmental Consulting services in Texas.

This position requires a dedicated professional engaged in delivering consistent and reliable results and effectively communicating with peers, superiors, clients, and regulators, a highly motivated, goal-oriented individual who will be responsible for providing management of projects and client accounts, oversight and review of technical documentation, and mentoring and supervision of staff.

#### **Responsibilities:**

- Maintain long-term strategic client relationships
- Effectively manage the preparation of proposals and other project deliverables in accordance with Company risk management and quality management requirements
- Identify and utilize available company resources to effectively support client needs
- Remain current with industry trends, market information and competitor knowledge to proactively identify potential opportunities and forecast business projections and growth targets
- Provide senior-level project management support of projects. Assure that scope, schedule and budget of projects are tracked and modified with client approval as needed
- Provide senior-level technical support (including field support, as necessary) to projects
- Possess demonstrated experience performing and supervising environmental projects such as LPST site assessments, RRC projects, due diligence/Phase I ESAs, property development, contaminated materials management, investigation/remediation, environmental compliance plan development, and permitting, knowledge of Clean Water Act Regulatory Program, Endangered Species Act as they relate to environmental permitting.
- Maintain current information on upcoming regulations and emerging environmental issues. Ensure compliance with state, federal, and other regulatory agencies
- Some overnight travel on short notice may be require.

#### **Required Skills:**

- Excellent verbal and written communication skills
- Strong analytical skills
- Demonstrated time management skills, resulting in the ability to manage multiple client relationships and prioritize time and resources accordingly.
- Demonstrated knowledge and understanding of TCEQ rules and regulations
- Demonstrated success in building and managing teams
- Proficient with MS Office (Word, Excel)
- Flexible work schedule to ensure project timelines are completed

- Must be able to conduct fieldwork for long hours, in sometimes inclement weather conditions, including walking at least 3-5 miles of rugged terrain of remote locations, and be able to carry equipment and supplies for field work assignments

**Required Experience:**

- Bachelor's degree in Geology, Earth Sciences, Environmental Sciences or related field
- 10+ years' experience in a leadership role in environmental consulting
- Current OSHA 40hr/8hr HAZWOPER training preferred.
- TECEQ CAPM license is a plus.

**Preferred Experience:**

- Corrective Action Project Manager (CAPM) certification
- Experience with TCEQ LPST Program
- Registered PG or PE in State of Texas

**Benefits:**

- We offer competitive salaries, most major holidays, personal time off.
- Medical, life, dental, and vision insurance benefits.
- CRG Texas is an equal opportunity employer.

CRG Texas Environmental Services, Inc is an equal opportunity employer.

Interested candidates should submit along with the resume a cover letter and salary expectation.
